2. **FURTHER ACTION**

If a demand for international preliminary examination is made, this opinion will be considered to be a written opinion of the International Preliminary Examining Authority ("IPEA") except that this does not apply where the applicant chooses an Authority other than this one to be the IPEA and the chosen IPEA has notified the International Bureau under Rule 66.1bis(b) that written opinions of this International Searching Authority will not be so considered.

If this opinion is, as provided above, considered to be a written opinion of the IPEA, the applicant is invited to submit to the IPEA a written reply together, where appropriate, with amendments, before the expiration of 3 months from the date of mailing of Form PCT/ISA/220 or before the expiration of 22 months from the priority date, whichever expires later.

For further options, see Form PCT/ISA/220.

Box No. I Basis of this opinion

1. With regard to the language, this opinion has been established on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.  
☐ This opinion has been established on the basis of a translation from the original language into the following language  
\_\_\_\_\_, which is the language of a translation furnished for the purposes of international search (under Rule 12.3 and 23.1(b)).
2. With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of:
  - a. type of material  
☐ a sequence listing  
☐ table(s) related to the sequence listing
  - b. format of material  
☐ in written format  
☐ in computer readable form
  - c. time of filing/furnishing  
☐ contained in the international application as filed.  
☐ filed together with the international application in computer readable form.  
☐ furnished subsequently to this Authority for the purposes of search.
3. ☐ In addition, in the case that more than one version or copy of a sequence listing and/or table(s) relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.

The inventions of claims 1-6, 18, 22, and 23 are described in document 1 (claims, Fig. 1) cited in the ISR; therefore they do not appear to possess novelty or to involve an inventive step.

The inventions of claims 2, 4-6, 18, and 22-24 are described in document 2 (claims, paragraph 0045, table 1, Fig. 1) and document 3 (claims, paragraphs 0001, 0020, table 1) cited in the ISR; therefore they do not appear to possess novelty or to involve an inventive step.

The inventions of claims 4-6, 18, and 22-24 are described in document 4 (claims, table 1, [Effect of the Invention]) cited in the ISR; therefore they do not appear to possess novelty or to involve an inventive step.

The inventions of claims 25 and 26 do not involve an inventive step based on document 2 and 4 and document 5 (claims, paragraph 0018, Fig. 1) cited in the ISR. Installing a reinforcing frame of document 5 at the lower end part of an aquafarming net described in documents 2 and 4 would be easy for a person skilled in the art.

The inventions of claims 7-17 and 19-21 are neither described in any of the documents cited in the ISR nor are they obvious to a person skilled in the art.
